Alpha Bank Cyprus: Accelerating action for women's equality

Alpha Bank Cyprus actively supports gender equality and participates in this year's international campaign for International Women's Day "**Let's ACCELERATE ACTION for women's equality**".

Through the active involvement of its People, the Bank joins its voice in the collective effort to spread the messages of International Women's Day. Members of its Employees have taken part in a photo shoot that captures the values of **Cooperation, Diversity, Equality and Action**, with the message #AccelerateAction.

As part of this initiative, the Bank will offer a symbolic gift to its female Employees, supporting the work and efforts of Europa Donna Cyprus over the years and contributing, in this way, to raising awareness and informing Society on breast cancer.

Alpha Bank Cyprus remains committed to creating a work setting that promotes gender equality in the workplace, through policies and initiatives for a fair and supportive environment.

It is worth noting that out of the 504 employees of Alpha Bank Cyprus, 322 are women (64%) and 32 of them hold managerial positions (34%), while 4 women serve on the Bank's Board of Directors (57%).

TOGETHER, we can accelerate action for women's equality.

Nicosia, 7 March 2025
